PROFILE

As a budding front-end developer, I am passionate about designing user-friendly websites to meet the unique needs of businesses as I start my career.

WORK EXPERIENCE

Oasis infobytes | Internship
May -June(2024)

Effectively completed practical assignments utilizing HTML, CSS, & Javascript to meet specific objectives, demonstrating strong problem-solving skills.

- In this internship, I created a Calculator, a To-Do list, a Tribute page, and Login authentication where I showcase my technical skills.

Teacher|(Self- employed)
April 2023- till now

- I love teaching because it not only provides opportunities for continuous learning and personal growth but also opens doors to new experiences.

PROJECTS

Currency- Converter-

- Created a dynamic currency converter with HTML, CSS, and JavaScript, showcasing skills in frontend design and JavaScript programming, with a focus on user-friendly interface and accurate currency conversions.

QR Code Generator

- Created a robust QR code generator application with HTML, CSS, and JavaScript, emphasizing user-friendly design and seamless integration for generating QR codes across various platforms.

Weather forecasting

- Developed a weather forecasting website with Python and Tkinter, leveraging the Open Weather Map service for real-time weather updates, forecasts, and historical data, providing accurate 7-day predictions.

Language

- Hindi | English
